

Thanks to Juki's industrial technology the EXCEED makes it possible to sew quilts beautifully!

Perfect Stitch Quality

Capability to sew from light to heavy weight materials

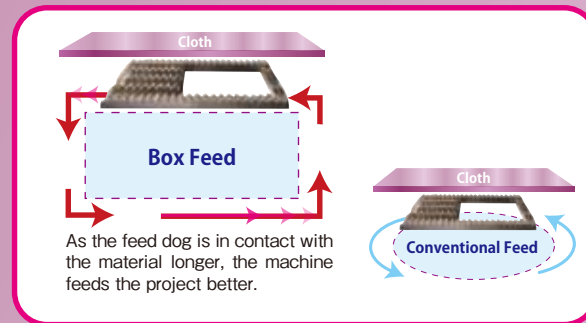

No fabric shrinkage even sewing on extra light weight materials. Thick handle can be sewn with ease.

Free motion sewing with stable thread tensions

Box Feed - Industrial Sewing Machine Technology

In order to provide beautiful seams and outstanding feed performance, JUKI adopted box feed system. The conventional feed mechanism is oval motion. On the other hand, the box feed moves the feed dog in a box motion. This eliminates material shrinking and shifting. This accurate feeding system provides superior stitch quality for a variety of light to heavy weight fabrics.

Wide Sewing Space

HZL-F series has a wider underarm space, with a wider table it is more enjoyable and comfortable to work with large projects. (F600 Standard)

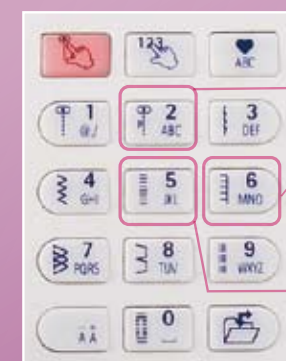

Knee-lifting Lever

Presser foot can be raised and lowered by the knee-lifting lever. Presser foot lift is up to 12 mm when the lever is used. (F600/F400 Standard)

Direct Stitch Pattern Selection

Frequently used stitch patterns can be selected directly through the Direct Select mode.

- Piecing
- Applique

- Zigzag stitch for applique

Accessory Parts for Machine Quilting

Walking Foot
(F600/F400 Standard)

Quilt Presser Foot
(F600/F400 Standard)

Open Toe Presser Foot
(F600 Standard)

Patchwork Presser Foot
(F600 Standard)

Edge Sewing Presser Foot
(F600 Standard)

For professional sewing results

New Function!

Foot Controller with thread trimming function

HZL-F series trims both needle and bobbin threads automatically by pressing the heel side of the foot controller. With this feature you can concentrate on your project while automatically cutting the thread.

It is also possible to trim threads with a button located at machine body.

Powerful Feeding

HZL-F series has powerful feeding thanks to a special steel feed dog and improved presser foot construction. Heavy material projects, such as hemming denim jeans, can be sewn with ease!

Industrial Quality Buttonholes

Using a unique sensor method, HZL-F series sews beautiful buttonholes regardless of the type of material and overlapped sections.

*16 types of buttonholes are available for your needs

New Function!

Cutting Width Adjustment of the buttonhole!!

Now it is possible to adjust the cutting width in 3 steps.
